BID-ROUND– DATA VIEWING RULES

Data viewing sessions are available at:
1. Ganope Office (Cairo)
2. Schlumberger Offices (Cairo, Gatwick (UK), Houston)
3. TGS Offices (Surbiton (UK), Houston)

The data available within this Data Viewing are:

- 17,716 km of 2D vintage conditioned seismic
- Summary (PowerPoint) of:
    - Well data
    - Regional Interpretation Study
    - RS18 2D survey
    - RS18 GravMag Data and Interpretation

Visits to the data viewing sessions are by prior appointment only. Upon making the appointment, companies are required to give the full name of the company, address, contact details and the names of the company representatives attending. Any changes must be notified to Ganope and to WG/TGS in advance via email (*redsea.bidround@ganope.net* - EgyptM*c@slb.com*). Prior to entering the data viewing sessions, companies through their representatives will be required to sign a declaration of acceptance to abide by the "Data Viewing Rules and Procedures" and a Confidentiality Agreement.

A maximum of three (3) persons per Applicant may enter the data viewing per visit at any one time. Data viewing duration should normally last between four (4) hours to seven (7) hours; cost for visiting the data viewing are US $5,000 (Five Thousand US Dollars) for a 4h session. Every additional hour will be charges at $2,000/hour (Two Thousand US Dollars per hours). In case the client decide to purchase the data, the cost of the Data Room will be deducted from the total cost of the data.

Data viewing users should be aware that the data presented in these sessions is for evaluation purposes only and is subject to the following conditions:

- Data Room Administrator will oversee the data viewing session and will handle the mouse.
- No seismic or any other material may be photographed, videoed, exported or removed from the workstations using any device which allows the recording and storage of digital information.
- Clients will be authorized to have writing tools and paper to take notes. In case any of the data are shown in printed form, notes may be taken, however NO document can be physically taken away from the room.
    - Up to five (5) screen shots per Data Viewing will be allowed; they will need to go through Data Room Administration approval before releasing them to the clients.
